Her story with Brazil isn't new.

Tinashe has been talking to Brazilian fans since 2010, years before her first album, and has already played for them twice. Popstar week is not an introduction. It's a reunion.

The only way to break into the Brazilian market is through local cultural codes.

Most international artists ignore this. The ones who don't get adopted.

Quero dançar com os gays na Zig, visitar a casa da Vita e conhecer a Patixa

EN I want to dance with the gays at Zig, visit Vita's house and meet Patixa

01

Zig

A legendary gay club in São Paulo that became the city's point of reference. Tinashe played there in 2023.

02

Casa da Vita

A nod to *Vita's House*, the album by Vita, a trans artist whose tracks took over clubs and the underground.

03

Patixa

A national meme: an "influencer" who never made content herself. Every video of her online was made by other people.

Three references only a Brazilian on the internet would get. Result: it went viral across Brazilian stan Twitter, months ahead of her Primavera Sound São Paulo date (Dec 2026).

Brazil, right now

CONTEXT

It's election season, and in Brazil, politicians are **pop culture**.

First round on **October 4**, nine days after Popstar drops. The race is **Lula**, the president and the "father" figure of Brazil's minorities, against **Flávio Bolsonaro**, son of Jair Bolsonaro, Brazil's Trump. Polls are tight and the whole country is online talking about it.

Next to Lula stands **Erika Hilton**, a trans federal deputy and a genuine internet diva, on issues that match Tinashe's values and her fans'.

POP ARTISTS IN THE CONVERSATION

Anitta

IZA

Not an electoral campaign. It's aligning the artist's ideals with her fandom's, in a country starved for attention from international artists.

Idea #1

Ask Brazil who its popstars are, then name the two biggest ones on the internet right now. Subtle on the surface, massive and organic underneath.

Both

are extremely online and likely to reply

Beyond music

reaches people who don't follow the release

brasil, vcs não saem da minha cabeça e já que estamos na semana do lançamento de popstar, quem é um popstar pra vocês por aí? nesse momento pra mim são lula e erika hilton. quero mostrar minhas novas músicas pra eles.

(EN) brasil, you guys have been on my mind nonstop. and since we're in popstar release week, who's a popstar to you over there? right now, for me, it's lula and erika hilton. i wanna show them my new music.

Lula
President of Brazil

Erika Hilton
Federal deputy

Why Idea #1 works

IDEA #1 · CONTEXT

Subtle on the surface: a popstar asking Brazil about its popstars. Underneath, it touches the biggest conversation in the country.

01

They are popstars here

In Brazil, Lula and Erika Hilton live inside internet culture: memes, edits, stan accounts. Calling them popstars speaks the local language.

02

Same values, same audience

Lula's base is LGBTQIA+, Black Brazilians, women, workers and young people. That is Tinashe's Brazilian fandom. Erika is a trans diva fighting for the same causes.

03

Built to be answered

Both are extremely online and answer culture. A reply from a president or a deputy restarts the news cycle, with Popstar in every headline.

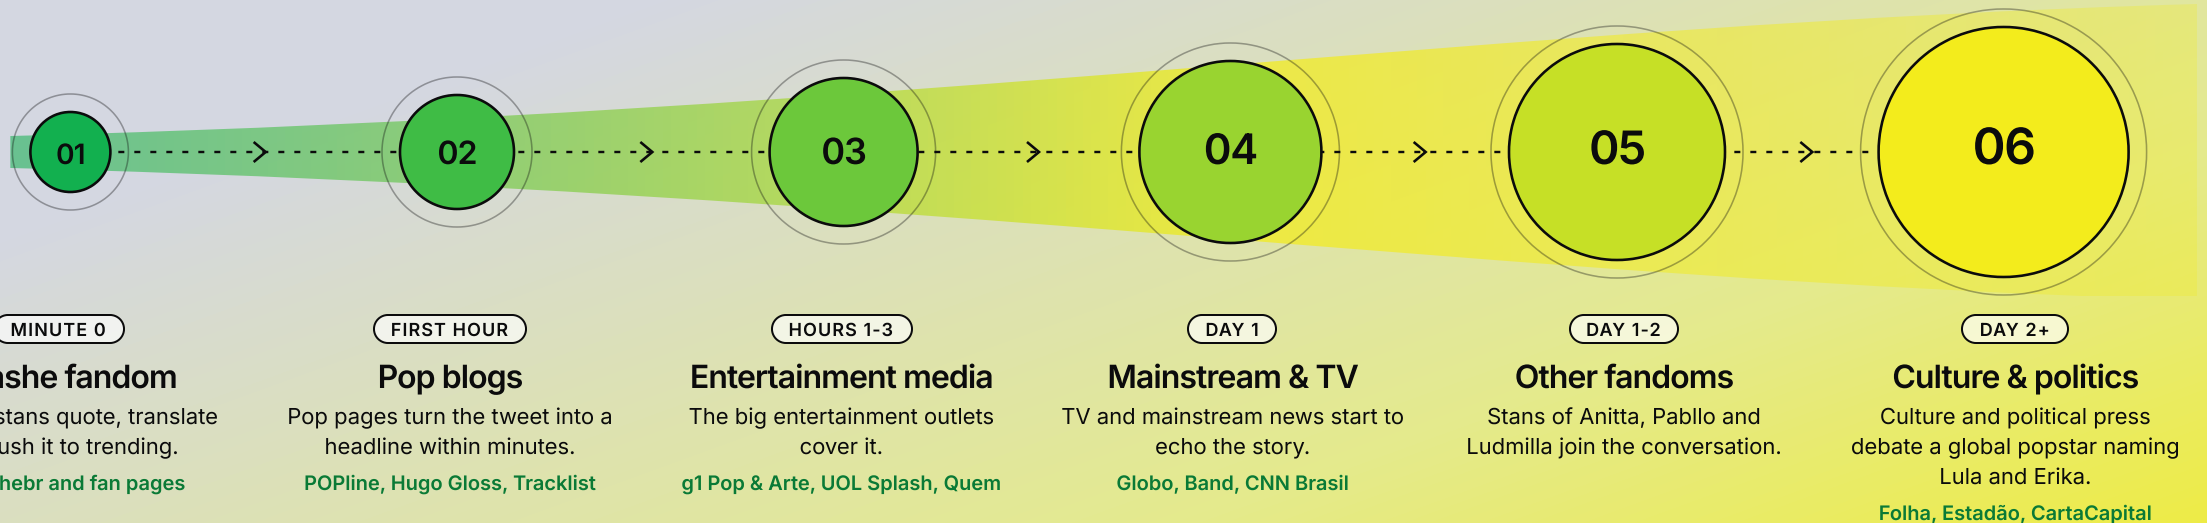

04

Beyond the music bubble

It reaches people who don't follow music or the release. After the tweet, they know Tinashe and they know Popstar is out.

HOW IT TRAVELS ON THE INTERNET

reach grows →

Idea #2

Link Popstar to Brazil's biggest cultural moment. Carnival is only next year, but samba schools are crowning their queens now, and they pick popstars.

Lower risk

pure culture, zero politics

Lower impact

stays inside the pop bubble

@Tinashe

brasil, vcs não saem da minha cabeça e já que estamos na semana do lançamento de popstar, quem é uma popstar pra vocês por aí? o que elas estão fazendo? ouvi dizer que anitta agora é rainha da grande rio, paolla oliveira na imperatriz? sabrina na vila isabel. eu queria estar no próximo carnaval também. estou com fomo

Sep 24 · 12:00 PM BRT · 8:00 AM PT · proposed

EN brasil, you guys have been on my mind nonstop. and since we're in popstar release week, who's a popstar to you over there right now? what are the girls up to? i heard anitta is queen of grande rio now, and paolla oliveira is with imperatriz? sabrina at vila isabel. i wanna be at the next carnival too. major fomo.

Anitta
Grande Rio

Paolla Oliveira
Imperatriz

Sabrina Sato
Vila Isabel

Why Idea #2 works

IDEA #2 · CONTEXT

Popstar meets Carnival, the one cultural moment every Brazilian cares about, while the 2027 build-up is already making news.

01 Carnival never really ends

The 2027 Carnival is months away, but the build-up is already on: samba schools are crowning their queens right now.

02 Three fandoms in one tweet

Anitta, Paolla Oliveira and Sabrina Sato each bring a massive audience. Naming all three multiplies the reach from minute one.

03 A seed for next year

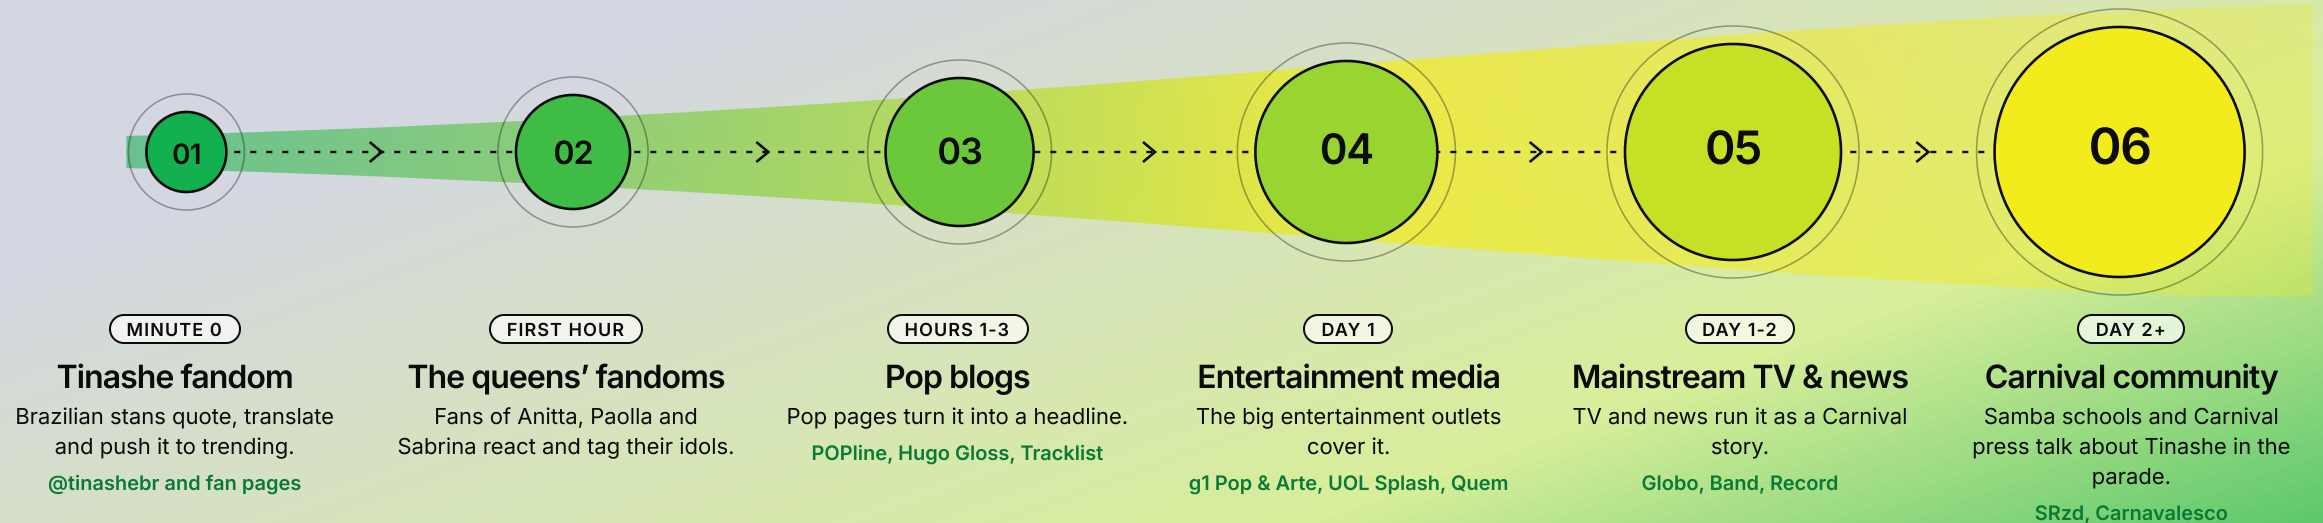

"Estou com fomo" invites a reply. Fans and samba schools start inviting Tinashe to Carnival, a story that can run for months.

04 Safe by design

Pure culture, zero politics. The trade-off: it mostly stays inside the pop and entertainment bubble.

HOW IT TRAVELS ON THE INTERNET

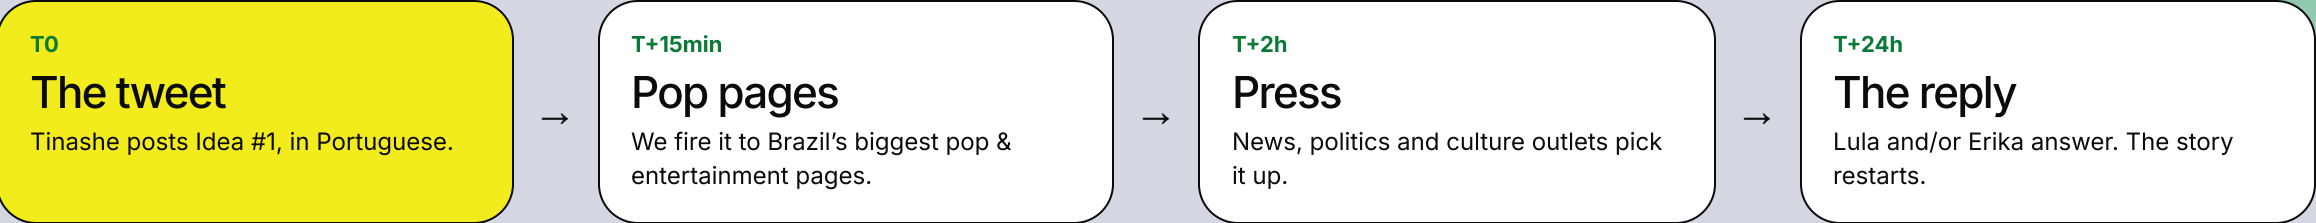

reach grows →

My bet: Idea #1

MINHA APOSTA

It's more original. It reaches people who don't necessarily know about the release or follow music. And after the tweet, they will. Right after posting, we push it to the big pop and entertainment pages.
